Not significant or not evaluated
Essential (other)
Core essential
Core conditionally essential
Effect on fitness (other studies)
Other
Essential (this study)
Identified
Not identified
Pathoadaptive (Weimann et al., 2024)
Pathoadaptive
Not pathoadaptive
Functional class
Energy metabolism
DNA replication, repair, chromosome segregation
Lipopolysaccharide
Protein export / quality control
Fatty acid & phospholipid metabolism
Cell division / envelope maintenance
Translation & RNA metabolism
Transport / efflux
Regulation / stress response
Other metabolism
Other / unclassified
